J STAR

Daystar introduces its front and rear Comfort Ride leveling kit for the '07 Jeep JK Wrangler. The kit comes with four 1¾-inch spacers, longer bumpstops, and rear sway-bar drop brackets to give your Jeep that extra bit of up. **Information:** Daystar Products, 800.595.7659, www.daystarweb.com

JEEP KARATS

If you're thinking about running 35s on your new JK Wrangler, but not looking to go sky high, Black Diamond has a suspension for you. Preset 3-inch coils, a front track bar, and a rear relocation bracket make room for the suggested 35x12.50 tires. Standard with the kit are four Black Diamond AT shocks with black boots, but more boot color varieties are available. **Information:** Black Diamond Advance Off Road Equipment, 866.680.6666, www.blackdiamondoffroad.com

Tires and Wheels

Baja Claw Radial Tires. Tough enough for trails, great on the highway. Combine advanced radial construction, cut resistant 3-ply sidewalls and full 6-ply tread for superior strength. Self cleaning tread lugs and directional 23° tread pattern dig deep to get you out of mud, snow and off road traps.

MEM21945G **\$139-268⁹⁹**

Wheels. Choose Classic II alloy wheels with polished holes, strong steel inserts and chrome plated center cap or black powder coat steel wheels with pinstripe for a true rock crawler look. **Sizes:** 15" x 10" or 15" x 8". Bolt circle: 5 lug on 4.5". For 87-06 Wrangler and 84-01 Cherokee.

MEM21944G / Alloy Wheel **\$98.99-112.99**

MEM21941G / Black Wheel **\$45.99-59.99**

OLD MAN WHO?

Maintaining a low and stable ride has always been a benchmark for Old Man Emu Suspension. The ARB-distributed product offers an entire line of 2- to 3-inch suspension packages from Ford pickups to Toyota Land Cruisers. Properly valved shocks working together with precision coil springs make Old Man Emu kits one of the best riding suspensions both on road and off. **Information:** ARB 4x4 Accessories, 425.264.1391, www.arbusa.com
