Daystar Scorpion Performance Shock Absorbers Now Available for Popular Leveling Kit Applications

Daystar Products now offers a line of Daystar Scorpion Performance Shock Absorbers, which are available for several popular applications. Paired with Daystar's Comfort Ride Lift & Leveling kits, Scorpion Performance Shock Absorbers provide the "total package" for anyone who wants no-hassle, one-stop shopping when adding 2"-3" of lift to their truck, Jeep, or SUV.

Daystar Scorpion Performance Shock Absorbers are specifically tuned for each vehicle application to ensure optimum performance. They feature a twin-tube design, which increases oil capacity and reduces shock fade. Inside the shocks are a durable piston seal and a velocity-sensitive valving stack, while a chrome-hardened piston shaft ensures longevity. Scorpion Performance Shocks are further strengthened with Daystar's premium Polyurethane shock bushings and topped off with legendary Daystar shock boots.

Daystar Scorpion Performance Shocks are available for these popular Comfort Ride Lift & Leveling kit applications, which require longer shocks:

94-10 Dodge Ram 2500 / 3500 4WD 2-1/2" Leveling Kit
94-10 Dodge Ram 2500 / 3500 2WD 2" Leveling Kit
99-06 Chevy Silverado 1500 2WD 2" Leveling Kit
05-10 Ford Super Duty F-250 / F-350 4WD 2" Leveling Kit
99-10 Ford Super Duty F-250 / F-350 2WD 2" Leveling Kit
07-10 Jeep Wrangler JK 1-3/4" and 3" Lift Kits
99-06 Jeep Wrangler TJ 1-3/4": and 3" Lift Kits

Scorpion Performance Shock Absorbers are available in white or a custom "natural camouflage finish. They are also available with Daystar's Lift & Leveling kits or as stand-alone replacements for any of the above applications. For more information, visit www.daystarweb.com or call 800-595-7659.
